

Shrejana Bhattarai # 724

Respected sir,

I am Sreejana Bhattarai. I lived in Jorpati, Basiguan. I am studying at Shree Saraswati Secondary school in class four. Sir, I have passed my class four in good division. I am here because of your caring and loving contribution towards me for my better future. Sir, I have six members in my family. father, mother, three brothers namely Roshan, Rupak and Kiran and including myself. Out of six members, only my father and mother are employed and all are unemployed. So, we have to totally depend on parent's income. For us, sometimes it is difficult to join our hand and mouth in morning or even in evening. There is low income and high expenditure because of which quality life cannot be run and there is always scarcity ~~life~~ quality life of getting better education, quality food and clothes. In fact, sometimes my parents unable to pay rent as well as credit amount of other too. My parents are trying to give us quality life with many facilities but they are not success all because of poverty.

Once again, I am heartily thankful to you for making me independent, confident and conscious about my own life. Through your small help towards me, it makes my future bright and better secure than the past life.

Yours sincerely
Sreejana Bhattarai
